

"Voyager of the seas" 4*

The Voyager class

The ships in the Voyager class are more than just technical masterpieces and more, too, than the largest liners in the world for they represent no less than a revolution in the entire cruise liner sector. The ships in the Voyager class are 30 per cent larger than all other liners and precisely this space is required to accommodate the numerous innovations on board (e.g. the first skating rink on a liner).
